

SNAPSHOT SERVICE OVERVIEW

CONNECTICUT'S HEALTH INFORMATION EXCHANGE

WHAT IS SNAPSHOT?

Patient Snapshot is available through the Connie Portal as a summary view of key patient data. From the Patient Snapshot, users can easily navigate to other Connie applications to view additional information.

FEATURES

- **Patient demographic information** includes the patient name, gender, date of birth (DOB), phone number, address, and (when available) Medicaid ID based on the most recent patient record provided to Connie.
- The **patient's next of kin** with contact information.
- The **patient's emergency, inpatient, outpatient, and/or ambulance encounters** displayed as a histogram by encounter type across a flexible date range.
- **Care team information**, which typically includes a list of practices providing care and the associated primary care provider. It can include a care manager or a care program if the patient is enrolled with one.

FAQs

Where can I find Snapshot?

Once you conduct a patient search, the Snapshot tool will be an app available to view patient data.

What information is provided in Snapshot?

Patient demographics, next of kin, encounters from ADTs, and the patient's care team. In 2022, we will be including claims data and advanced directives.

What data is used to populate Snapshot?

Patient panels from providers populate the care team and demographic information, and ADTs populate demographic, next of kin and encounter data. For information on organizations currently submitting data to support this feature, visit <https://conniect.org/for-organizations/>

Can I access Snapshot through my EHR using the InContext App?

No, however the data displayed in Snapshot is available within the InContext application itself. The Snapshot view is only available through the Connie web-based portal.

Where can I find more information about using this service?

Additional information about accessing the service is available through the Portal User Guide. If you would like to speak with us for more information or schedule a demo of this or other services, please contact us at (888) 783-4410 or email us at info@conniect.org.

USER STORY

Before I meet with my patient during a visit, I can use the Snapshot feature to identify potential issues that I need to be aware of and discuss with my patient. I can quickly see their care team, and any healthcare encounters they had in the past year. This provides me with a quick orientation before digging into my patient's details in preparation for our appointment.
